FX30 also works with Interface Bracket for Motion Computing C5 Tablet PC  
**60-588-200**

Part Number: 60-588-200

Description: Interface Bracket for Motion Computing C5 Tablet PC (black)

Includes: Bracket, mounting hardware, manual

Ergotron mount and Motion Computing C5 not included

Compatible with any LCD mount that uses a VESA MIS-D (75 x 75 mm) mounting hole pattern

The C5's docking station includes a 75 x 75 mm interface—where a mount's backward tilt is sufficient, the C5 can attach directly to any Ergotron mount with a VESA MIS-D interface. It is the perfect add-on to any StyleView or Neo-Flex Mobile WorkSpace Cart—dock the tablet at the rear of the cart while using an external LCD and keyboard. Also works well with FX30 and VL.

Shipping Dimensions: 6" x 6" x 4" (152 x 152 x 104 mm)

Shipping Weight: 1.4 lbs (.6 kg)

Warranty: Five (5) years
